Atten: Spectators

Re: Desert Storm 2008

I would love to have a spectator area for this year but due to the permit obligations we have to do this year with the government officials. We cannot have a designated spectator area. Next year we will work on having designated areas that we can offer for you. So please understand and that when an event marshal ask you to do something or maybe have to leave due to the control and where it is situated. We would love it that you respect them and so as they ask you to do to keep safety in mind for the event.

What you can do is come out to work the event by going on the worker tab of the event website and sign up and enjoy a weekend of fun and making new friends. Bring along a team of people. We still need:

FRS non ham radio operators

Control/Timing workers (start and finish)

Thank you for your understanding. So we can continue to have next year another event in the Blythe area.
