

### Media Credential Guidelines

Credentialed media on photo/video assignment who have been granted a media vest shall be allowed to film, tape or photograph on-course action from designated photo locations, as well as behind-the scenes and lifestyle elements.

We encourage all videographers/photographers; if you are to promote a competitor or are on media editorial assignments or to promote the event or a series itself.

We encourage competition teams to promote themselves or for personal use.

If you are to sell photography and/or video for any commercial or retail purposes whatsoever; (we do have a couple of photographers who do sell competition photographs to competitors...like Motorsport Memories and are approved to do so); then you need permission from the event organizers to do so if we do not know about your intent. We just want to know what your intentions for the photographs or video. More then likely there will not be any problems about your intent for selling, but there are a couple of things that need to be discussed.

Please download the following forms to become credentialed.

Thank you,  
Denise McMahon
