

Instructions for Competitor Registration

Go to the Rally America website: <http://rally-america.com/events/2011/DS1/entries>

Click on the login button and access your account (you need an ID# and password)

If you do not have an account, create a new account

If you have an account and don't remember the account number and/or password, contact Bob at 763-553-2742

In the events section, "click here" to sign up for an event

Pick the event you want to sign up for and click on "Signup"

The person entering the event will, by default, become the driver

Find your co-driver by typing in the last name in the pull down menu and click on that name. If your co-driver is not on the list, they have to create an account first and then be added.

Fill in the car information and add that to your entry

After you have filled out everything, click on the "I agree" section and then click on the "enter event" button
